CREATE YOUR OWN LOTERÍA CARD

Lotería is a traditional Mexican board game similar to bingo. Historically, the cards used in lotería often depicted simple characters and illustrations in order to be used for educational purposes such as teaching reading, writing, history, and social values. Use the template below to create your own Loteria card!

Extension Activity:

Have your entire class create their own loteria card design and put them together to create your own version of the game to play together! Don't have a large enough group to create a *tabla*? No worries! Download our version of the game [here](#)!

Never played the game before? Watch the video below for a quick tutorial!

Have you ever wondered why your favorite snack is your favorite?

It turns out that psychology plays a big part in why we like the foods we do! Both our genes and our environment help shape our food preferences. What we were exposed to as babies, and how often we ate those foods, can affect what we like to eat today. The good news is that as we grow, we can learn to like new foods just by trying them more often!

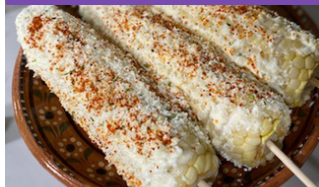

Directions: Below is a fun mix-and-match game with unique snacks from around the world. Try to match each snack with the right country. Happy snacking!
